

A TRIBUTE TO ART PRICE IN RECOGNITION OF HIS 28 YEARS OF SERVICE

HON. DANIEL E. LUNGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 12, 2010

Mr. DANIEL E. LUNGREN of California. Madam Speaker, I rise today to recognize and honor Arthur Price for his 28 years of service.

Art Price was born in Escondido, California, October 13, 1951 to Arthur and Betty Price. He graduated from Ramona High School in 1969, then Grossmont Jr. College and California State University, Sacramento—earning a B.A. in Criminal Justice.

Art met Kathryn Price and was married on August 18, 1974. He graduated from P.O.S.T. in 1980 and was hired as a District Attorney Investigator for the Sacramento County District Attorney's Office. On June 15, 1981, he was hired as the Chief Investigator for the Amador County District Attorney's Office, and has faithfully served five District Attorney Administrations as Chief Investigator since then.

Art played a key role in assisting the District Attorney in receiving the Auto Insurance Fraud, Workers' Compensation Fraud, and Elder Abuse grant programs, and Art's influence was critical in forging an alliance between the District Attorney's Office and the Department of Social Services to combat welfare fraud in our community.

In 2002, Art was recognized by his peers as the Amador County Peace Officer of the Year. At the time of his retirement, Art was the longest serving District Attorney Chief Investigator in the State of California, recognized statewide as a leader in law enforcement. Art has also been active in the state law enforcement community through his work with the California District Attorney Investigators' Association, serving as president in 1999–2000.

Art's greatest legacy is his service to the community, having served as soccer coach, President of the Mother Lode Youth Soccer League, fundraiser for the Amador Polar Bears swim team and the Amador High School Volleyball team, Project Leader for the Sierra Eagles 4–H, Food Chairman for Sober Grad, member of the Jackson Lions and other positions for worthy causes.

Art is a devoted family man and father to five children—Arthur, Janice, Cheryl, Victoria, and John—and grandfather to four—Arthur, Kaitlyn, Timothy, and David.

I am pleased to recognize and congratulate Art Price for his dedication towards the District Attorney's Office, local law enforcement, and the citizens of Amador County.

HONORING JIMMIE JENKINS ON HIS RETIREMENT FROM FAIRFAX COUNTY, VA

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, January 12, 2010

Mr. CONNOLLY of Virginia. Madam Speaker, I rise to honor the exemplary public service of Jimmie Jenkins, whose leadership and contributions in the field of wastewater management made him a vital resource to local governments in Northern Virginia and across the nation.

Jimmie Jenkins is retiring as director of the Fairfax County Department of Public Works and Environmental Services, capping a 33-year career in which he helped shaped the county's building, environmental and inspection services. This actually is the second time Jimmie has retired from Fairfax County. He originally retired in 2001 from the county's wastewater division, but he returned in 2004 to oversee the entire public works agency.

I had the great pleasure of working with Jimmie during my 14 years on the Fairfax County Board of Supervisors, including 5 as chairman. When retirement notices would come before the board, my colleagues and I often would say in good humor that someone should pass a law prohibiting such decisions because we could not bear to part with such dedicated and talented people. We actually succeeded in Jimmie's case by luring him out of retirement once, but it looks like he is serious this time.

Jimmie built a reputation in Fairfax as a charismatic "can do" manager, known for his direct "tell-it-like-it-is" style and his unabashed support for his alma mater, Virginia Tech, as evidenced by his large collection of maroon and orange ties. Jimmie began his career in the former Department of Environmental Management in 1973 as a structural engineer, reviewing plans for compliance with the building code. He has held several positions within the wastewater management area, including the
